Have you ever looked at a map of the world and wonder why some of the names repeat? Why there is a Georgia in the east and a Georgia in the west? A place called Cairo and Memphis on the Nile River in Africa and a Cairo and Memphis near the Mississippi River in the West? This goes back to ancient history of North, Central, South America and the Caribbean Islands. On this exotic map, you will see some of the names of places you see in the east and these are places in the Unites States. It would be best if the masses of the people read the book called "When Rocks Cry Out" by Horace Butler. This book was written by a brother from Texas who spent over 20 years and over \$100,000 researching and proving that the Bible is speaking about 23,000 years of archive documented history that took place in North, Central, South America, Caribbean Islands and West Africa. His research shows that ancient Jerusalem is in the Americas, there were 10 Hebrew tribes in the Americas, Moses and the Exodus story took place in the Americas, Ancient Egypt started in the Americas, the place that Jesus The Christ was born is in South America; Ancient Memphis, Heliopolis and the Great Pyramids of the Egyptians are in the Americas, Sodom and Gomorrah and the land of Moab are in the Americas and much, much more. This book will change your life and bring some clarity to the ancient history of the Americas - [When Rocks Cry Out](#)

A closer analysis of the names of native tribes will immediately reveal their Arabic etymological ancestry; Anasazi, Apache, Arawak, Arikana, Chavin, Cherokee, Cree, Hohokam, Hupa, Hopi, Makkah, Mohician, Mohawk, Nazca, Zulu, and Zuni are only a few.
